Financial Highlights of FY2024/6

◆ **Net sales grew steadily, exceeding the initial forecast.**

In particular, the Cloud Integration Business is expected to remain in high demand and to continue to strongly drive overall sales and profits.

◆ **Operating profit not reach the initial plan mainly due to a temporary increase in SG & A expenses.**

Expenses related to two M & As (30 million yen) and bad debt losses and related provision of allowance for doubtful accounts (57 million yen) were incurred in the fourth quarter, and preparation expenses for transition to a holding company and travel and transportation expenses increased from the initial forecast.

◆ **Recruitment is generally progressing according to the plan.**

Annual net increase in the number of employees was 136, 10.1% year on year, steadily reinforcing the service provision system.

◆ **The impact of the Noto Peninsula earthquake that occurred on January 1, 2024 on our Group's performance is minor.**

Cloud integration Business

The most important business driving the Group's growth. Taking advantage of market growth, we will actively invest in expanding new areas such as AI and promoting existing businesses, and secure stock-based revenues through resale.

System integration Business

Steadily secure sales and profits as a stable business. In addition, we will provide a diverse lineup of services in this business to customers in other businesses to support them to receive orders. We will also encourage engineers to shift their skills to the cloud sector, contributing to a high growth of the entire Group.

Outsourcing Business

Steadily expand sales and profit by accumulating stock-based revenues, mainly in our own data center.

Product Business

Steadily build up stock-based revenues such as license fees and expand a high-margin and stable earnings structure.

Overseas Business

In addition to research on the most advanced IT information in North America, we have strengthened the system to ensure that this business alone generates profits.

*1 Net sales are sales to external customers.

*2 Segment profit is the amount after adjustment for operating profit in the consolidated financial statements.

Consolidated Net Sales and Income by Segment of FY2024/6

◆ Cloud Integration Business

- Demand continues to be strong with DX as a tailwind, and we are steadily strengthening our service provision system through hiring and in-house training, so both sales and profits are progressing ahead of plan.
- ServiceNow and AWS achieved high growth, due to steady orders from end users and strengthened systems for ServiceNow, and due to steady accumulation of resales for AWS.
- Azure OpenAI, services related to Microsoft's generative AI, and Oracle Cloud Infrastructure have grown significantly, steadily expanding the scope of services.

Cloud Integration Business Details (1) Cloud platform migration (Microsoft Azure, AWS, Google Cloud, Others) and usage support

- ◆ We provide cloud migration and usage support, leveraging our strengths in the area of using cloud databases and data analysis platforms.
- ◆ After migration, we secure stock-type revenue without requiring human labor by reselling cloud accounts.
- ◆ Structure that supports high growth through steady accumulation of resales

Cloud Integration Business Details (2) Support for the Introduction and Use of ServiceNow

- ◆ We have achieved high growth through a system that ranks 3rd in Japan in the number of ServiceNow certified build certifications acquired*1 and the know-how accumulated over the approximately 10 years since the start of service provision within our group.
- ◆ First domestic company certified as a Bronze Services Partner in 2017*2; currently the Elite Partner.
- ◆ We maintain high profit margins because engineers are rare in this field.

Consolidated Net Sales and Income by Segment of FY2024/6

◆ System Integration Business

- Fields where our Group has strengths, such as ERP (SAP)-related fields, are performing well.
- Both sales and profit were lower than planned due to the increasing shift of engineers from this business to the Cloud Integration Business.
- The decrease in segment profit was mainly due to the effect of the allocation of SG & A expenses, and it was concluded that there was no significant decrease in the profitability of the business.

■ Net sales*1

■ Gross profit/profit ratio*2

■ Operating profit/profit ratio (Segment profit/profit ratio*3)

Segment profit (operating profit) decreased due to the effect of an increase in common SG & A expenses such as Head Office expenses, which are prorated and allocated according to the incurred cost of each segment, as well as an increase in cost of the business.

Consolidated Net Sales and Income by Segment of FY2024/6

◆ Outsourcing Business

- In the data center business, Net sales steadily increased due to the accumulation of stock-type revenues such as monthly subscription fees and the rise in user fees per company due to the expansion of customer usage, and gross profit increased due to the introduction of high profit margins.
- Near-shore sales (SAP ERP maintenance, etc.) in Kanazawa expanded due to system reinforcement.

◆ Product Business

- Stock-type revenues such as license fees are steadily accumulating and are expected to continue to increase in the future.
- SHIFTEE's sales decreased due to a decrease in customization at the time of introduction, but stock sales increased.
- Although gross profit increased due to the acquisition of new high-margin installation projects and an increase in the ratio of stock sales, the operating profit was affected by an increase in selling, general and administrative expenses due to exhibitions and sales activities.

Growth Strategy by Segment

Business outline

Growth Strategy

Product Business

Development, sales, and customization of products (software) by Our Group
Mainly cloud-based products (monthly billing system)

■ Maintaining and improving stable high profitability

By increasing non-customized sales, we will strengthen the structure in which increased sales lead to higher profits. We will accumulate stock-based sales such as monthly usage fees to ensure stable high profit margins.

■ Customer expansion

In order to increase new customers, Our Company will expand sales channels for agents and strengthen advertising and publicity.

■ Functional enhancement

Continue to enhance existing products to reduce lead time until introduction and improve competitiveness against other companies' products.

■ Net sales of Product Business and ratio of stock sales (monthly usage fees, etc.) against net sales

Unit: 1 million yen

Overseas Business

System integration overseas (in the U.S. and Canada), outsourcing of payroll and accounting services, recruitment services, and media management

■ Expansion of cutting-edge services in Japan

Collecting cutting-edge IT information to develop promising businesses in Japan.

■ Support for companies entering North America

Support for IT infrastructure, recruitment, and marketing of Japanese companies entering North America.

■ Strengthening outsourcing services

Strengthen remote monitoring services for Japanese companies using the time difference between Japan and North America and outsourcing services for Japanese companies in the U.S.

Growth Investment Policy

◆ Accelerate growth by investing cash generated from business activities for developing new areas and strengthening business foundations.

Policies in each sector

■ Investment in human resources

Positioning human resources as a source of business growth, we will invest mainly in “active recruitment and appointment of diverse human resources” and “human resources development” (see page 14 for human resources strategy)

■ R & D investment

Focus on considering the development and strengthening of services, especially AI and cloud services.

■ M & A investment

Dynamic implementation of M & A to expand the service lineup and resources in growth areas.

Shareholder Return Policy

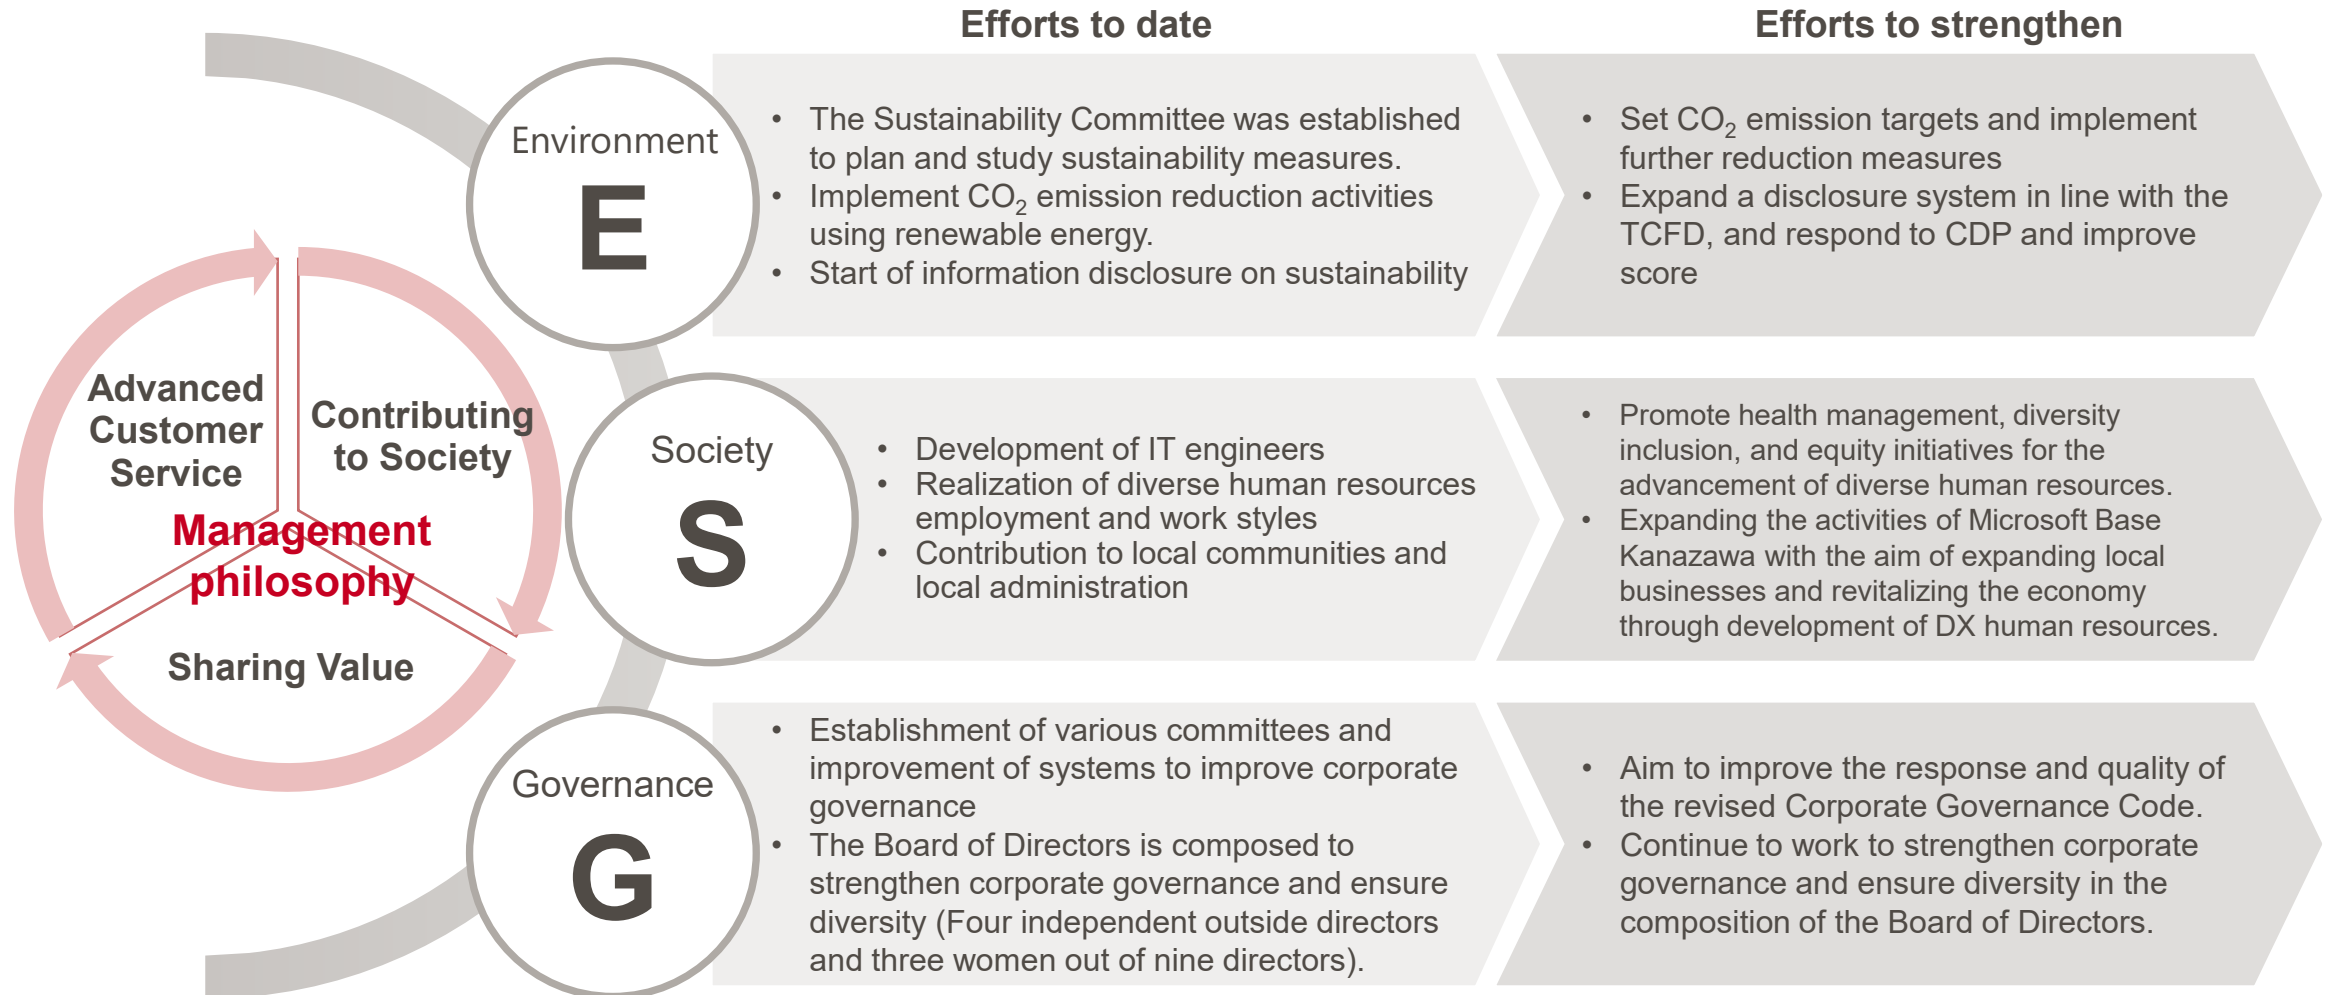

◆ Dividend policy

Our basic profit distribution policy is to continue to pay progressive dividends to shareholders and increase the level of dividends in accordance with our performance and profit level, while investing in future growth and strengthening our management structure.

Sustainability Policy

◆ Address social issues through sustainability management based on the management philosophy.
